Spectrolab Raman Laboratory

Features

21CFR -2 compliant

Hand held 1064nm Laser (Zero Fluorescence)

Hand Held 785nm lasers

(Best value in the world)

Desk top Raman 488nm to 1064nm

Applications include

Research Raman

Narcotics , Explosives, Hazardous Materials

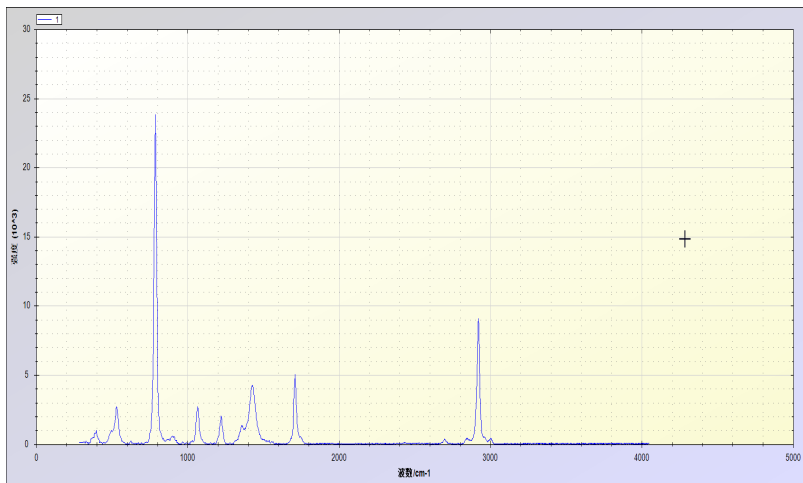

QA / QC Pharmaceuticals

First Defender

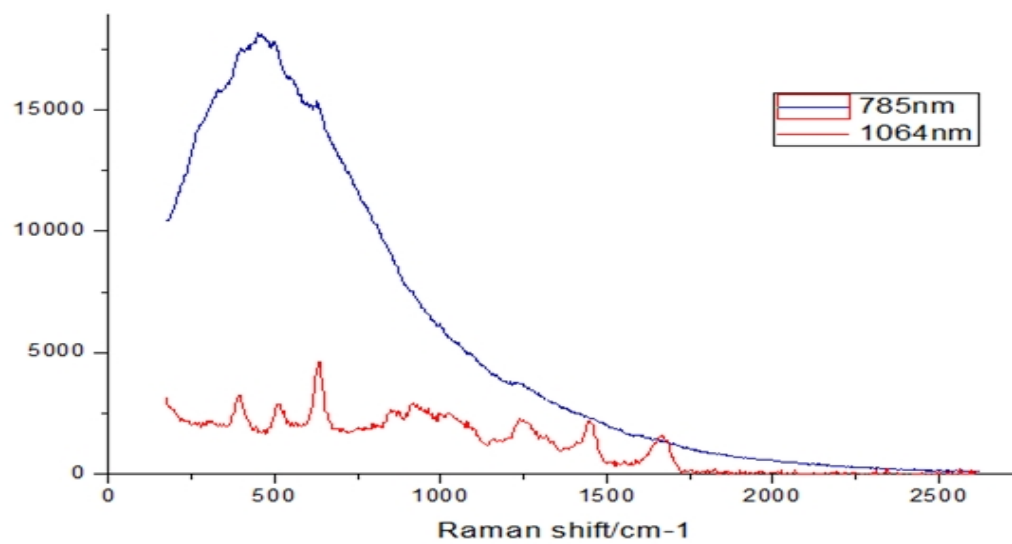

All other applications

The unique Laserspec hand held Raman laboratory with 1064nm

Acetone 0.5 seconds measure time

1064 nm laser (zero fluorescence),

SPECTROLAB
